

A LOT CAN BE COMMUNICATED IN A YEAR

While I write something almost every day, if only a few emails, in the course of the year I write lots of different things, and I talk about different topics of interest to different audiences in different countries. Since there is nothing worse than not being able to find the correct citation for something you have written in the past or recalling when you said what where, I have disciplined myself to keep a methodical record of publications and talks of all kinds, and it extends a very long way and has been drawn on elsewhere in this website. Since no year is typical, below is a list of what I have done in the past three years.
